Budzar World Alliance Portable Chiller

Features Include:
- Full Diagnostics and Protection Against:
  - Loss of Power
  - Phase Reversal
  - Motor Overload
  - High Temperature
  - Loss of Water Pressure
- Separate High and Low Refrigeration Liquid-Filled Pressure Gauges
- Liquid-Filled Pump Pressure Gauge
- Automatic Fill Valve
- Alco Thermal Expansion Valve
- Internal Spring Loaded By-Pass Valve Prevents Deadheading of Pump and Potential Freezing
- Oversized Air Cooled Condenser for Low Head Pressure and Capacity
- Non-Proprietary Controller
- Adjustable Freezestat Switch Prevents Damage to the Evaporator
- High and Low Pressure Switches
- Copper Tubing on all Instruments and Gauges
- Copeland Scroll Compressor
- Hirshman Hot Gas By-Pass Valve and Liquid Line Solenoid Valve
- Heavy-Duty Powder Coated Cabinet
- Motor Circuit Protectors (Not Just Fuses) Eliminate Nuisance Fuse Failure
- Finger-Safe Electrical Enclosure
- Phase Motor
- Stainless Steel Tank
- Control Panel Disconnect Switch

Portable Chillers

- Lifting Eyes
- Oversized Air Cooled Condenser for Low Head Pressure and Higher Capacity
- Automatic Fill Valve
- Internal Spring Loaded By-Pass Valve Prevents Deadheading of Pump and Potential Freezing
- Stainless Steel Multi-Stage Pump
- 12’ Power Cord
- Separate High and Low Refrigerant Liquid-Filled Pressure Gauges
- Full Diagnostics and Protection Against:
  - Loss of Power
  - Phase Reversal
  - Pump & Compressor Overload
- Audible Alarm
- Liquid Filled Pump Pressure Gauge
- Illuminated Compressor and Pump On/Off Switches
- Heavy Duty Powder Coated Cabinet
- Alco Thermal Expansion Valve with Flared Connections So It Can Be Replaced Without Brazing
- Vertical Air Discharge Moves Heat Away from the Operators
- High and Low Pressure Switches
- Cooper Tubing on All Instruments and Gauges
- Copeland Scroll Compressor
- Hirschmann Hot Gas By-Pass and Liquid Line Solenoid Valves
- Flare-Mounted Filter-Drier So It Can Be Replaced Without Brazing
- Large Stainless Steel Reservoir With Lid
- Non-Proprietary PID Controller
- Lockable Enclosure
- Integral Disconnect
- Adjustable Freezestat Switch Prevents Damage to the Evaporator
- Large Fully Insulated Shell & Tube Evaporator Is Much More Resistant to Fouling Than Brazed Plate Style Exchangers
- Stainless Steel Drain Valve—Not Just a Plugged Port
- Swivel Casters (Lockable)
- Refrigerant Sight Glass and Moisture Indicator
- Totally Enclosed Fuseblocks for Added Safety
- Multi-Tap Control
- Anti-Short Cycle Timer Prevents Damage to Compressor
- LED Light for Positive Indication of Fuse Failure—Eliminate 4s Troubleshooting
- Motor Circuit Protectors (Not Just Fuses) Protect Pump Motor and Compressor Eliminates Nuisance Fuse Failure and Fans
