

Extreme temperatures?
Extreme specifications?

Budzar can meet the challenge!

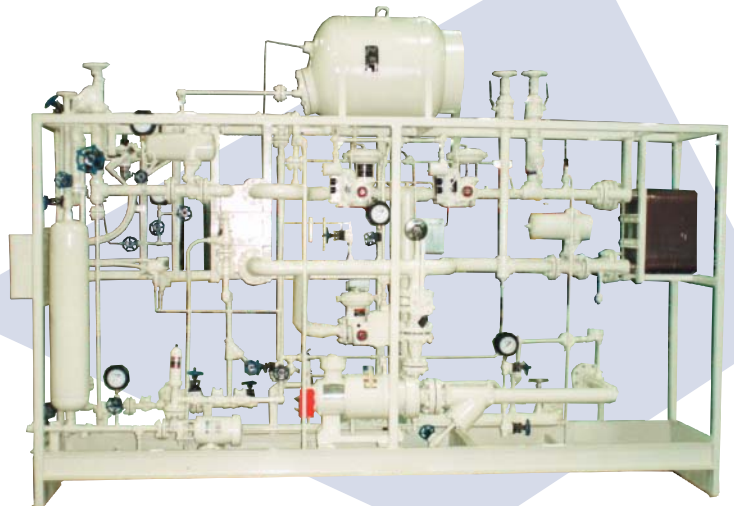

Biopharmaceutical Systems

- Thermal Waste Deactivation Systems
- Fermenter Jacket Control Systems
- pH Control Systems
- Local, PLC or DCS control systems
- Liquid Nitrogen Exchange Thermal Fluid Systems to -100° F

Process Skid Packages

- Batch Weighing Systems
- Fluid handling and storage systems
- All types of skid piping fabrications
- ASME welding (carbon & stainless steel)
- UL and CSA control panels
- Local, PLC or DCS control systems
